

M1C2 UI/UX Assignment

Task One: Referencing this image, create a low-fidelity wireframe.

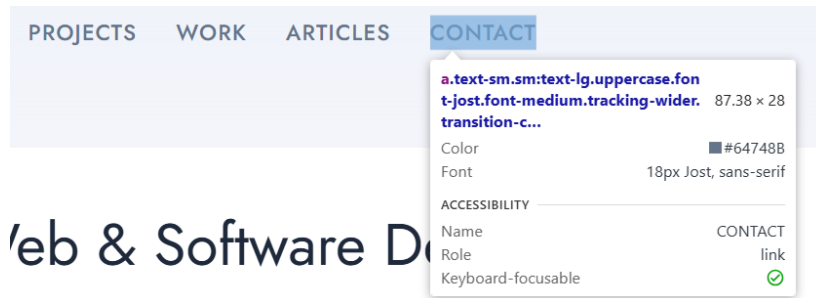

Task Two: Use one of the following websites and the inspect tool to identify 2-3 colors used repeatedly as part of the site's color scheme. Remember that different shades of gray and black can be included as a color.

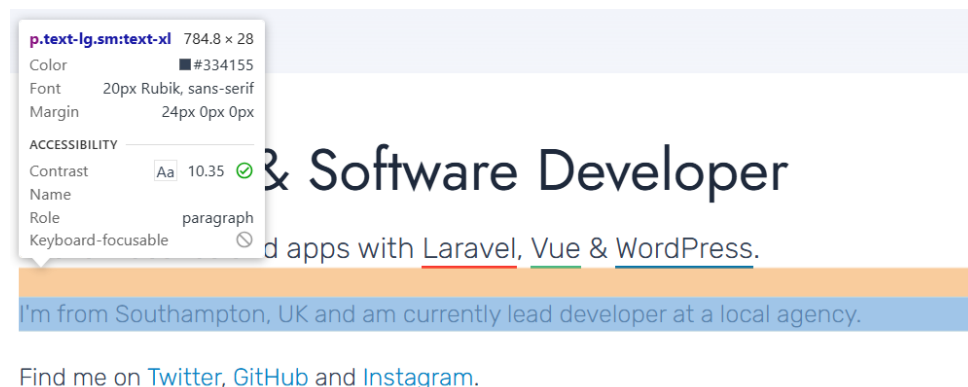

Selected link: <https://sebkay.com/>

Identified colors:

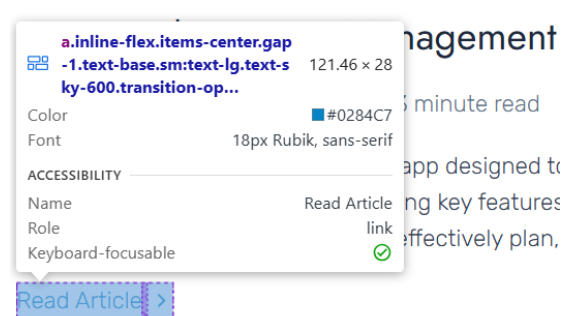

- Color 1: #64748B

- Color 2: #334155

- Color 3: #0284C7

Task three: Create a user story by referencing one of these websites:

Selected website: <https://www.google.com/>

As a user I want to search for information in the search bar to find results that are relevant to my query. The search can be made inserting text, an image or an audio. I can search logged with my email account, as a guest or in incognito.

Task Four: Identify the prime objective of Facebook, Twitter, Google, and Youtube.

- Facebook: Connect with people and build communities.
- X (Twitter): Share ideas publicly without any barrier.
- Google: Organize all the information of the world and make it publicly accessible.
- YouTube: Share videos of any kind of topic and allow the world to watch and interact with them with comments.
